KEY DRIVERS OF MARKET RETURNS, Q4-2021

- **Omicron variant**
 - Slowed service sector re-opening
 - Long maturity yields remained low globally
- **Increase in inflation**
 - Fed rate hikes priced into front end
 - US Treasury yield curve flattened, short rates higher with long rates lower
- **Emerging Market Equities underperformance**
 - Central bank rate hikes (Brazil, Turkey, Russia, Mexico, Indonesia, South Africa)
 - China economic pivot to “shared prosperity”

IMPLICATIONS OF RUSSIAN INVASION OF UKRAINE

- Geo-political:
 - Tectonic shift in European history; battle between Putin's goal of restoring Russian imperialism vs. expansion of NATO leading to greater freedom and democracy
 - "Defending democracy is going to cost" – President Biden
- Markets:
 - Acceleration from deflationary environment of last 30-40 years to inflationary environment
 - EU will reduce dependency on Russian oil (28%), natural gas (40%) and coal (50%) and accelerate renewable energy transition
 - Additional upward pressure on commodity prices as Russia and Ukraine supply 25% of world's wheat and Russia supplies 20% of world's fertilizer
 - Germany pledges to increase defense spending to 2% of GDP, resulting in fiscal deficits
 - "Russian economy faces an economic abyss" - Daleep Singh, Deputy National Security Advisor
 - Central banks rate increases, sooner/faster/more leading to increased probability of hard landing

Appendix A - Consolidated Performance Report	p.29
Appendix B - Public Markets Manager Performance Detail	p.37
Appendix C - Alternative Assets Manager Performance Detail	p.49
Appendix D - Footnotes	p.62

Through December 31, 2021

Market Backdrop: Despite COVID-19 concerns resurfacing, developed equity markets finished the calendar year on a high note with positive returns for the quarter. U.S. equity markets (as measured by the Russell 3000 Index) returned 9.3% for the quarter, as the U.S. stock market rallied shortly after the Federal Reserve's meeting in December. The strongest sectors were Real Estate and Materials, which generated returns of 14.8% and 13.9%, respectively, for the quarter ending December 31, 2021. Although developed international equity markets performed positively during the fourth quarter, they trailed U.S. equity markets, as the MSCI EAFE IMI Net Index (in USD terms) returned 2.3%. Emerging market equities declined slightly this quarter as the MSCI Emerging Markets Net Index (in USD terms) returned -1.3%. Global real estate markets, as measured by the Dow Jones US Select Real Estate Securities Index, were largely up over the fourth quarter and returned 17.2%. Upward pressure on rates and high inflation statistics continued to weigh on broad investment grade fixed income as the Bloomberg Aggregate Bond Index posted a return of 0.1% for the quarter. Below Investment Grade Corporate bonds continued to outperform investment grade corporate bonds, as the Bloomberg High Yield Index returned 0.5% for the quarter and the Bloomberg Corporate Index returned 0.2%.

Through December 31, 2021

Total Fund Performance: The Teachers' Total Fund returned 3.52% (net of fees) for the quarter ending December 31, 2021, generating a return of 18 basis points higher than the policy benchmark over the same period. During the quarter, allocations relative to targets detracted 2 basis points from the relative performance of the Fund and manager selection contributed 20 basis points to total fund returns. Manager selection within private equity and opportunistic fixed income were the large positive contributors to total fund returns. For the one-year period ending December 31, 2021, the Total Fund returned 11.51% net of fees, outperforming the policy benchmark by 45 basis points. For the three-year period ending December 31, 2021, the Total Fund returned 14.78% net of fees, outperforming the policy benchmark by 7 basis points. The Total Fund fees for public market assets for the calendar year-to-date ending December 31, 2021 have been estimated at approximately 11 basis points. Please note that all composite and manager performance data in the sections below is reported net of fees.

- **Total Fund Asset Allocation - \$104.0 Billion:** As of December 31, 2021, the Fund had a total market value of \$104.0 billion, up from \$101.2 billion on September 30, 2021. In the Growth segment of the Total Fund, underweights to non-core private real estate of 2.3% and opportunistic fixed income of 1.9% were offset by overweights to domestic and equity international emerging managers, consistent with the strategy to invest in more liquid assets while awaiting private real estate commitments to be drawn down. In the Deflation Protection segment of the Fund, Short Term investments were 1.3% above long-term targets. Finally, within the Inflation Protection segment of the Fund, core real estate and infrastructure remain about 3.0% below target in aggregate, pending new commitments to and capital calls from private funds. As of December 31, 2021, the total private equity, infrastructure, and private real estate invested allocation was 12.8% versus their aggregate long-term allocation of 18.0%.
- **U.S. Equity - \$28.6 Billion, 28% of Fund:** The U.S. equity composite return of 9.28% was in line with the broad U.S. equity market, represented by the Russell 3000 Index, which also returned 9.28% for the quarter. Approximately 95% of the U.S. equity composite is allocated to passively managed mandates. The actively managed portion of the U.S. equity composite, a majority of which i invested in smaller cap strategies, returned 3.02% during the quarter, underperforming the Russell 3000 return by 626 basis points. The small cap sub-composite returned 2.87% during the quarter versus the Russell 2000 Index return of 2.14% for the same period. For the one-year period ending December 31, 2021 the U.S. equity composite underperformed the index, returning 25.35% versus the Russell 3000 Index's return of 25.66%. Over the three-year period ending December 31, 2021, the total U.S. equity composite and the Russell 3000 index returned 25.79%.
- **Developed International Equity - \$10.6 Billion, 10% of Fund:** Non-U.S. developed equity markets, as measured by the MSCI World ex-USA Custom Benchmark, returned 2.71% in U.S. dollar terms during the quarter. During the same period, the Fund's total developed international equity composite returned 1.14%, underperforming its custom benchmark by 158 basis points. In contrast to the U.S. equity composite, the developed international equity composite was approximately 79% actively managed as of December 31, 2021. For the one-year period ending December 31, 2021, the overall composite returned 8.71%, underperforming

Through December 31, 2021

the World ex-USA Custom Benchmark return of 12.39%. Over the three-year period ending December 31, 2021, the Total Developed international composite returned 17.83%, outperforming the benchmark return of 14.38% by 345 basis points.

- **Emerging Markets Equity - \$9.4 Billion, 9% of Fund:** Emerging market equities, as measured by the TRS Custom EM Index, returned -1.31% during the fourth quarter of 2021. During the same period, the emerging markets equity composite, which is about 88% actively managed, returned -1.55%, underperforming the TRS Custom EM Benchmark by 24 basis points. For the one-year period ending December 31, 2021, the emerging markets equity composite returned -0.64%, outperforming the benchmark return of -2.54%. For the three-year period ending December 31, 2021, the emerging markets equity composite returned 10.53%, outperforming the benchmark return by 36 basis points.
- **Structured Fixed Income – \$26.0 Billion, 25% of Fund:** The structured fixed income composite returned -0.04% during the fourth quarter of 2021, underperforming the custom structured benchmark return of 0.13% over the same period. Over the trailing one-year and three-year periods ending December 31, 2021 the structured fixed income composite returned -3.25% and 6.26%, respectively.
- **Core Fixed Income – \$289 Million, 0.3% of Fund:** The core fixed income composite returned -0.14% during the quarter ending December 31, 2021, underperforming the Bloomberg US Aggregate index return of 0.01% over the same period. Over the trailing one-year and three-year periods ending December 31, 2021 the core fixed income composite returned -1.04% and 5.85%, respectively.
- **High Yield - \$5.2 Billion, 5% of Fund:** The corporate high yield market, as measured by the Bloomberg U.S. High Yield 2% Issuer Cap Index, returned 0.69% during the fourth quarter of 2021. The actively managed high yield composite outperformed the benchmark, returning 0.73% over the same period. For the one-year period ending December 31, 2021, this composite returned 5.71% while the High Yield Custom Benchmark returned 5.26%. Over the three-year period ending December 31, 2021, the composite returned 9.16%, outperforming its custom benchmark by 35 basis points.
- **TIPS - \$3.7 Billion, 4% of Fund:** The broad U.S. TIPS market returned 2.36% during the quarter ending December 31, 2021. The composite of TIPS managers (74% passive and 26% active) underperformed the benchmark by 5 basis points, returning 2.31% for the quarter. For the one-year period ending December 31, 2021, the TIPS composite returned 5.85%, underperforming the benchmark return of 5.96%. For the three-year period ending December 31, 2021, the composite and its benchmark both returned 8.44%.

Through December 31, 2021

- **Opportunistic Fixed Income - \$3.2 Billion, 3% of Fund:** The opportunistic fixed income composite is comprised of investments in ten funds, representing 14% of this composite's assets, and fifteen strategic separate account mandates, representing 86% of composite assets. These strategic mandates and funds call down capital as opportunities are identified and are still in the process of being funded. During the fourth quarter of 2021, the overall composite returned 2.98%, outperforming the blended benchmark of 50% / 50% J.P Morgan Global High Yield Index and Credit Suisse Leveraged Loan Index +3%, which returned 1.26% over the same period. For the one-year period ending December 31, 2021, the overall composite returned 17.81%, outperforming the 8.29% return of the blended benchmark. Over the longer three-year period ending December 31, 2021, the opportunistic fixed income composite returned 9.16% versus the benchmark return of 10.01%.
- **Private Equity - \$7.4 Billion, 7% of Fund:** At the end of the fourth quarter of 2021, the private equity portfolio had \$7.4 billion in invested capital. The Fund currently has investments in 205 partnerships. Performance is reported separately by Teachers' Private Equity consultants.
- **Private Real Estate - \$4.5 Billion, 4% of Fund:** At the end of the fourth quarter of 2021, the private real estate portfolio had \$4.5 billion in invested capital. The composite has investments in 90 partnerships. Performance is reported separately by Teachers' Private Real Estate consultants.
- **Private Infrastructure – \$1.4 Billion, 1% of Fund:** At the end of the fourth quarter of 2021, the private infrastructure portfolio had \$1.4 billion in invested capital. The composite has investments in 29 partnerships and co-invest pools. Performance is reported separately by Teachers' Infrastructure consultants.

The overall carried interest and performance incentive fees paid by TEACHERS for the Fiscal Year: 10.49 BPS

General Footnote(s):

Public accounts reflect actual payments and if an actual payment has not been incurred then an accrued expense is reported.

Private market accounts reflect expense amounts provided on the quarterly ILPA reports. If an ILPA report is not available then the partnership financial statements are prorated for each limited partner and if financial statements are unavailable then cash flow payments reported by the custodian are reported.

Appendix D

Footnotes

Through December 31, 2021

General Notes

- Estimated management fees for public market investments are calculated on an accrual basis without adjustment for management fee caps. Alternative investment (Private Market) fees are recorded on a cash basis and are not inclusive of carried interest paid. Since not all alternative managers currently provide detailed fee disclosure, the alternative investment fees noted here are not comprehensive.
- Returns greater than 1 year are annualized.
- Public Market returns are Net of Manager Fees for periods after January 2014 and Gross of investment advisory fees for other periods unless otherwise indicated.
- Public market excess returns for periods prior to 2014 are based on Gross performance.

Page Specific

Pages 8 - 13 - Portfolio Asset Allocation

- Rebalancing Ranges: the minimum and maximum weights that actual Asset Allocation may reach before rebalancing between Asset Classes is necessary.

Pages 14 - 16 - Performance Attribution: Total Plan

- Plan Return at Policy Weights: the return of the Total Plan assuming actual Asset Class results were maintained at target (Adjusted Policy) weights. *Figure = (Return of Asset Class 1 * Target Weight) plus (Return Of Asset Class 2 * Target Weight) plus (.....)*
- **Allocation Effect** = Total Plan Return minus Plan Return At Adjusted Policy Weights. Allocation is the Contribution to Performance resulting from an overweight or underweight to an asset class. E.g. an underweight to an Asset Class that under-performs results in a positive Allocation Effect and vice versa.
- **Selection Effect** = Equal to the Custom Benchmark (Adjusted Policy Index) Return minus Plan Return at Adjusted Policy Weights. This illustrates how the Managers have added or removed value based on their Security Selection decisions, e.g., *If the manager's Actual Returns are higher than the Implied Return there will be a positive Selection Effect.*
- **Policy Index = Custom Benchmark**
The "policy index" is a custom benchmark representing the weighted average return of the weighted benchmark indexes for each major investment program. Weights may reflect an adjustment of actual policy for outstanding commitments for new or revised programs, such as for private market programs, which are invested gradually, or for any new or updated program requiring the completion of RFPs

Through December 31, 2021

and contracts. The policy index/custom benchmark is calculated monthly based on adjusted policy weights at the beginning of each month.

The indexes and most recent policy weights are as follows:

*U.S. Equity: Russell 3000 * 27.09%*

*International Developed (EAFE) Markets: MSCI World ex USA IMI Net * 9.81%*

*International Active-Global: MSCI World Net Dividends Index * 0.35%*

*Emerging Markets: MSCI Custom TRS Emerging Markets (Net) * 9.41%*

*International Emerging Managers FoF: NYC Blended Custom Benchmark for FoF * 0.76%*

*REITs: Dow Jones Real Estate Securities * 0.00%*

*Private Equity: Russell 3000 + 300 b.p. per annum * 7.00%*

*Private Real Estate – Core: NFI - ODCE Net * 2.58%*

*Private Real Estate – Non-Core: NFI - ODCE Net + 200bps * 1.64%*

*Infrastructure : CPI + 4% * 1.34%*

*US Treasury Short Term: FTSE USBIG Treasury 1-3Y * 2.80%*

*US Treasury Intermediate: FTSE Treasury/Agency 1-10 Y * 9.53%*

*Total Active Government: NYC Treasury Agency + 5 * 0.00%*

*US Treasury Long Duration: FTSE Treasury 10+ * 3.36%*

*Core FI-Developing Managers: Bloomberg U.S. Aggregate * 0.00%*

*Core FI-Emerging Managers: Bloomberg U.S. Aggregate * 0.00%*

*Mortgage: Bloomberg US Mortgage Backed Securities * 5.37%*

Through December 31, 2021

*ETI: ETI Custom Benchmark * 0.70%*

*Investment Grade Corporate: NYC Custom IGC Benchmark * 6.06%*

*High Yield: Bloomberg U.S. HY - 2% Issuer Cap * 5.45%*

*Bank Loans: Credit Suisse Leveraged Loan * 0.00%*

*TIPS: Bloomberg Global Infl-Linked: U.S. TIPS * 3.67%*

*Convertible Bonds: ICE BofA All US Conv Ex Mandatory * 0.00%*

*Opportunistic Fixed: OFI - JPMGHY / CSFB 50/50 Blend Plus 300 b.p. per annum * 3.10%*

Page 17 – Allocation and Selection Effects - Asset Class Breakdown

- This chart aims to break down the Allocation and Selection Effects shown on the Performance Attribution pages. The aim of the Page is to show the asset classes where Managers are either out performing or under performing their benchmark and to show the basis point effect that this is having on Plan performance.

Through December 31, 2021

-
- [1] NYC Developed Value Benchmark: Beginning 8.2017 benchmark changed from MSCI EAFE Value Net to MSCI World ex USA Net Index.

¹ Certain bond investment amounts are allocated pro rata across boroughs based upon unit count.

² If not indicated otherwise, superintendent units are allocated based on building size.

*RBC purchased a security in third quarter calendar year 2021 in the amount of \$410,000, encumbering 1 unit in Brooklyn, that was incorrectly credited to Manhattan. A payoff occurred in Queens in the third quarter calendar year 2021, which under reported the paid off units from 4 to 1. Both errors have been corrected in this report.

Section 1:

Portfolio Update

Portfolio Snapshot

Hamilton Lane was engaged by the Teachers' Retirement System of the City of New York ("TRS") in October 2010 to provide alternative investment consulting services in accordance with the investment objectives of the TRS Private Equity portfolio (the "Portfolio"). This report represents the review by Hamilton Lane of TRS's Portfolio and is based upon information made available to Hamilton Lane by the general partners sponsoring each of the partnership investments in the Portfolio as of September 30, 2021, with highlights through December 31, 2021.

Portfolio Snapshot

9/17/2021	Centerbridge Capital Partners IV - N Co-Invest, L.P.	Co-Investment	\$32.0
9/24/2021	Ares Private Opportunities (NYC), L.P.	Co-Investment	\$60.0
9/24/2021	Ares Corporate Opportunities Fund VI, L.P.	Corporate Finance/Buyout - Mega	\$100.0
9/30/2021	Clearlake Capital Partners VII, L.P.	Corporate Finance/Buyout - Mega	\$144.0
Total			\$1,183.5

During the third quarter, the Portfolio closed on nine new investments, totaling \$753.5 million, which are detailed below:

KKR North America Fund XIII SCSp (\$160.0 million) The fund will target five core sector verticals: TMT, consumer, healthcare, industrials and financial services. The General Partner employs both a top-down and bottom-up investment approach to identify leading companies operating in growing end markets.

Apax Digital II, L.P. (\$45.0 million) The fund targets lower, middle-market technology companies within the tech-enabled services, data & analytics, software, digital marketplace and digital media & disruptive ecommerce verticals.

Warburg Pincus Financial Sector II, L.P. (\$84.5 million) The fund invests in a diverse range of sub-sectors within financial services. The General Partner intends to avoid investing in areas that are partially cyclical with low barriers to entry.

Insight Partners XII Buyout Annex Fund, L.P. (\$32.0 million) The fund intends to co-invest alongside the flagship vehicle in leveraged buyout deals.

Hamilton Lane

Insight Partners XII, L.P. (\$96.0 million) The fund targets high-growth, technology businesses located primarily in North America, Europe and Israel. The General Partner has refined its strategy to focus specifically on software as a service (“SaaS”), software-enabled services and internet companies, driven by the attractive dynamics of these business models such as rapid revenue growth and high recurring revenue.

Centerbridge Capital Partners IV – N Co-Invest, L.P. (\$32.0 million) The fund is a co-investment sleeve alongside Centerbridge Capital Partners IV, L.P.

Ares Private Opportunities (NYC), L.P. (\$60.0 million) The fund is a co-investment sleeve of Ares Corporate Opportunities Fund VI, L.P.

Ares Corporate Opportunities Fund VI, L.P. (\$100.0 million) The fund targets North American middle-market and upper middle-market companies within the consumer & retail, healthcare, services & technology and industrials sector verticals.

Clearlake Capital Partners VII, L.P. (\$144.0 million) The fund will target businesses within the technology, industrials and consumer sectors. Within its core sectors, Clearlake maintains the ability to target high quality, growth-oriented companies as well as value-oriented, operationally-challenged businesses that lack the managerial or financial resources to execute operational changes.

Subsequent Closings

Subsequent to the end of the third quarter of 2021, and through the end of Q4 2021, the Portfolio made five commitments totaling \$330.9 million.

Subsequent Commitments After September 30, 2021			
Closing Date	Partnership	Strategy	Commitment Amount (\$ in Millions)
10/22/2021	Reverence Capital Partners Opportunities Fund V (FOO) (PE Fund III), L.P.	Co-Investment	\$13.0
10/22/2021	Reverence Capital Partners Opportunities Fund V (PE Fund III), L.P.	Corporate Finance/Buyout - Mid	\$35.0
11/19/2021	Permira VIII	Corporate Finance/Buyout - Mega	\$145.4
12/30/2021	TPG Rise Climate, L.P.	Multi-Strategy	\$45.8
12/30/2021	TPG Rise Climate Co-Invest, L.P.	Co-Investment	\$91.7
Total			\$330.9

Reverence Capital Partners Opportunities Fund V (FOO) (PE Fund III), L.P. (\$13.0 million) The fund is a co-investment sleeve alongside Reverence Capital Partners Opportunities Fund V (PE Fund III), L.P.

Reverence Capital Partners Opportunities Fund V (PE Fund III), L.P. (\$35.0 million) The fund targets financial services companies operating across five sub-sectors including: insurance, asset & wealth management, bank and non-bank finance, capital markets and FinTech. Reverence flexibly allocates the Fund across all verticals, and evaluates the risk-return profile, as well as long-term trends in each industry and may shift the Fund's focus to defensive investments when concerns about the market environment arise.

Permira VIII (\$145.4 million) The fund targets technologically-enabled companies primarily in North America and Europe across Technology, Consumer, Healthcare and Services sectors, having merged Industrials, Financial Services and Business Services into one Services sector focus.

TPG Rise Climate, L.P. (\$45.8 million) The fund invests in impact-oriented businesses that combat climate change and facilitate decarbonization. The General Partner targets companies with the primary objective of averting or removing meaningful amounts of greenhouse gases from the atmosphere.

TPG Rise Climate Co-Invest, L.P. (\$91.7 million) The fund is a co-investment sleeve alongside TPG Rise Climate, L.P.

Portfolio Performance Summary

The chart below is a graphical depiction of the IRR performance of the Portfolio with respect to 3-Month, 6-Month, 1-Year, 3-Year, 5-Year, and Since Inception time periods. The Portfolio is benchmarked against the Cambridge Associates Pooled IRR, Cambridge Associates Upper Quartile IRR and the Russell 3000 Public Market Equivalent ("PME+") plus 300 basis points

**NYC Teachers IRR Performance
vs. Benchmarks
as of September 30, 2021**

Note: Private Equity benchmark is provided by ThomsonOne/Cambridge and reflects U.S. Buyout Funds Pooled IRR and Upper Quartile IRR as of September 30, 2021, for funds with vintage years 1999 to 2020. PME+ is the Russell 3000 Total Return Index and incorporates the PME + methodology. This calculation includes a 3% premium.

- As private equity is a long-term asset class, the most significant time horizon is the since inception time period. Performance on a since inception basis for the third quarter of 2021 increased 26 basis points from the prior quarter, with the Portfolio generating an IRR of 12.51%.
 - Relative to the benchmarks, the since inception IRR is underperforming the Cambridge Associates Pooled IRR by 159 basis points, the Cambridge Associates Upper Quartile IRR by 1,301 basis points, and Russell 3000 PME+ plus 300 basis points by 251 basis points.
- Performance on a one-year basis for the third quarter of 2021 decreased by 439 basis points from the prior quarter, with the Portfolio generating an IRR of 45.53% as of September 30, 2021.
 - Relative to the benchmarks, the one-year IRR is outperforming the Cambridge Associates Pooled IRR by 223 basis points and the Russell 3000 PME+ plus 300 basis points by 1,118 basis points, but is underperforming the Cambridge Associates Upper Quartile IRR by 1,707 basis points.

Quarterly Value Analysis

The table below details quarterly performance of the Portfolio for the year ending September 30, 2021.

⁽¹⁾ Commitments in the above table do not include liquidated/sold investments.

⁽²⁾ Cambridge Associates Benchmark - US Buyouts as of 9/30/2021.

⁽³⁾ PME Return is the Russell 3000 Total Return Index and incorporates the PME+ methodology.

⁽⁴⁾ PME Spread is the percentage difference between the IRR and PME Benchmark for each respective vintage year.

Performance by Geographic Focus

The table below details IRR performance of the Portfolio with respect to Geographic Focus.

Performance Summary by Region ^{(1)/(2)}						
Region	Capital Committed	Paid-In Capital	Capital Distributed	Reported Market Value	IRR	Total Value Multiple
North America	\$7,136,938,067	\$6,573,409,571	\$6,447,068,650	\$4,693,467,167	12.63%	1.69x
Western Europe	\$1,773,113,566	1,213,085,191	679,305,689	1,269,734,320	12.87%	1.61x
Global/Rest of World	2,708,523,102	1,800,646,932	1,533,486,024	1,259,548,743	11.77%	1.55x
Total	\$11,618,574,735	\$9,587,141,694	\$8,659,860,363	\$7,222,750,230	12.51%	1.66x

Note: Commitments in the above table do not include liquidated/sold investments.

⁽¹⁾Prior to a partnership being 75% drawn, region focus is based on the GP-stated geographic strategy. Subsequent to a partnership being 75% drawn, fund geographic focus is based on actual portfolio company exposure by total invested. Partnerships with less than 75% of total invested capital allocated to one geographic region are classified as Global.

⁽²⁾Fund Geographic Focus is based on a number of factors, including the GP-stated geographic focus, the number of investments within each region, invested capital by region, the location of the firm's offices and investment professionals, and the underlying fund currency.

Cash Flow Drivers

The chart below highlights the cash flows of the Portfolio over the past five quarters ended December 31, 2021.

Portfolio Exposures

The pie charts below represent the strategic and geographic diversification of the Portfolio as of September 30, 2021. Strategy is measured by total exposure, which is the sum of the market value and the unfunded commitments and provides a snapshot of the Portfolio's future diversification. Geography is measured by the Portfolio's exposed market value of the underlying portfolio companies.

	Sum of Current Exposed Market Value	% of Total
North America	\$5,825.6	70%
U.S. (non-NY State)	\$5,273.9	63%
U.S. (NY State)	\$551.7	7%
New York City	\$246.2	3%
Non-New York City	\$305.5	4%
Western Europe	\$1,702.4	21%
Rest of World	\$588.8	7%
Asia	\$185.6	2%
Total	\$8,302.4	100%

- The Portfolio is focused in the Corporate Finance/Buyout strategy, with 65% of the total exposure attributable to this strategy.
- With respect to geography, the Portfolio is concentrated in North America, with 70% of the Portfolio's underlying market value attributable to this region.
 - o The remaining 30% of the Portfolio's exposure is diversified between Western Europe, Asia and 'Rest-of-World'.

- o Roughly 7% of the Portfolio's current exposed market value is based in New York.
 - About 3%, or roughly \$246.2 million, of the Portfolio's current exposed market value is based in New York City.

The pie chart below represents the industry diversification of the Portfolio as of September 30, 2021. Industry diversification is measured by the Portfolio's exposed market value of the underlying portfolio companies.

**Underlying Investment Diversification
by Industry
As of September 30, 2021**

Note: FoF Holding primarily comprised of secondary purchases made through investments with a Secondaries strategy

*Please note that the NYCTRS - 2012 Emerging Manager Program includes the total commitment amount of \$165.05 million. The Program's original commitment amount of \$175 million was subsequently revised to \$165.05 million, all of which has been committed as of September 30, 2021. The remaining \$9.95 million was reallocated to the NYCTRS - 2015 Emerging Manager Program.

**Please note that the NYCTRS - 2015 Emerging Manager Program includes the total commitment amount of \$198.5 million. The Program's original commitment amount of \$209.95 million, which included the original \$200 million commitment and the \$9.95 million reallocation from the NYCTRS - 2012 Emerging Manager Program, was subsequently revised to \$198.5 million. As of September 30, 2021, all \$198.5 million has been committed, and the remaining \$11.45 million was reallocated to the NYCTRS - 2019 Emerging Manager Program.

***Please note that the NYCTRS - 2019 Emerging Manager Program commitment amount totals \$251.45 million, which includes the Program's original \$240 million commitment and the \$11.45 million reallocation from the NYCTRS - 2015 Emerging Manager Program. As of September 30, 2021, \$50 million has been committed.

¹ Please note that the Total Portfolio is inclusive of liquidated investments in the TRS Portfolio and include sales proceeds from the 2012 Secondary Sale Partnerships.

² Performance for funds with less than 8 quarters of activity is not yet meaningful.

³ The total PME is the Russell 3000 Total Return Index and incorporates the PME + methodology for all partnerships where distributions have occurred, and incorporates the Long Nickel methodologies for those partnerships that have not yet had any distributions to date. The fund PME is the Russell 3000 Total Return Index and incorporates the PME+ methodology for all partnerships where distributions have occurred.

⁴ PME Spread is the percentage difference between the IRR and PME Benchmark for each respective partnership.

Note: Where available, September 30, 2021 reported valuations were used. In the absence of September 30, 2021 reported values, market values have been adjusted forward using interim cashflows through September 30, 2021. The IRR calculated in the early years of a fund is not meaningful given the j-curve effect. The aggregate portfolio performance figures for IRR and multiple are as of September 30, 2021.

Appendix A:

Glossary of Terms

Teachers' Retirement System of the City of New York

Third Quarter 2021 Report

Additional Fees: The amount of capital an investor pays into a fund/investment that does not count against the investors' commitment. Additional fees typically consist of management fees or late-closing interest expense.

Capital Committed: An investor's financial obligation to provide a set amount of capital to the investment.

Capital Contributed: Capital contributed from an investor's capital commitment to fund partnership investments, organizational expenses and management fees.

Capital Distributed: Cash or stock disbursed to the investors of an investment.

Co/Direct Investment: A direct investment is a purchased interest of an operating company. A co-investment is a direct investment made alongside a partnership.

Corporate Finance/Buyout: Funds seeking to make controlling and non-controlling investments in established companies which have the potential to achieve greater value through improved performance.

Cost Basis: Capital contributions less return of principal.

Fund-of-Funds: An investment vehicle which invests in other private equity partnerships.

Fund/Investment Size: The total amount of capital committed by investors to a fund.

Investment Category: Used to identify investments in one of the following categories: co/direct investments, fund-of-funds, primary funds, secondary fund-of-funds or secondary purchases.

Investment Strategy: A sub-classification of a partnership's investment type, such as Co/Direct Investment, Corporate Finance/Buyout, Mezzanine, Real Estate, Special Situation, Venture Capital.

Life Cycle Period: The current stage of a partnership depending on the percentage contributed to date. Life cycle periods are investment and realization.

Mezzanine: An investment strategy involving the purchase of subordinated debt. These securities exist between the senior debt and equity of a holding's capital structure. Subordinated debt carries a lower level of risk than pure equity structures because they generate current income and have a more senior position in the company's capital structure.

Net Internal Rate Of Return ("IRR"): The discount rate that equates the net present value of the partnership's cash outflows with its inflows and residual value at the time of calculation. The calculation is net of management fees and the general partner's carried interest.

Originator: The institution responsible for recommending a client commit to an investment.

Ownership Percentage: The investor's percent of ownership as measured by capital committed divided by fund/investment size.

Paid-In Capital: The amount of capital an investor has contributed to a partnership, which includes capital contributions and additional fees.

Pooled Average IRR: An IRR calculation which aggregates cash flows (paid-in capital and capital distributed) and the reported market values of each investment within a portfolio to create one portfolio investment and return.

Portfolio Holding Exposure: The limited partner's pro rata allocation to an underlying investment based on the ownership percentage of the partnership.

Teachers' Retirement System of the City of New York

Third Quarter 2021 Report

Primary Fund: Defines when the investor acquired an interest in the partnership. Primary fund is the investment category when an investor participates in a closing at the inception of the partnership.

Private Equity Partnership: A professionally managed pool of capital that generally invests in unlisted companies or securities. Common investment strategies include corporate finance/buyout, mezzanine, special situations and venture capital.

Realized Multiple: Ratio of cumulative distributions to paid-in capital.

Return On Investment ("ROI"): A calculation based on the total value (market value plus distributions) divided by paid-in capital for an investment.

Reported Market Value: The investment's capital account balance at quarter end, which includes the general partner's reported value of the underlying holdings and other assets and liabilities.

Secondary Fund-of-Funds: A private equity vehicle formed to purchase active partnership interests from an investor.

Secondary Purchase: A purchase of an existing partnership interest or pool of partnership interests from an investor.

Special Situation: Partnerships that invest using a unique strategy. Examples include distressed and turnaround, industry focused and multi-stage partnerships.

Total Exposure: Calculated by the summation of market value and unfunded commitments.

Venture Capital: An investment strategy that provides start-up or growth capital to companies in the early stages of development. Venture investments generally involve a greater degree of risk, but have the potential for higher returns.

Vintage Year: The year in which a partnership makes its first capital call for an investment into a portfolio company/holding.

Disclosure Statement

Teachers' Retirement System of the City of New YorkThird Quarter 2021 Report

Non-public information contained in this report is confidential and intended solely for dissemination to Teachers' Retirement System of the City of New York and/or its Affiliates. Hamilton Lane has prepared this report to enable Teachers' Retirement System of the City of New York and/or its Affiliates to assess the performance and status of its alternative investment portfolio. The calculations contained in this document are made by Hamilton Lane based on information provided by the general partner (e.g. cash flows and valuations), and have not been prepared, reviewed or approved by the general partners. Hamilton Lane hereby disclaims any liability resulting from any unauthorized dissemination of the attached information.

The information contained in this report may include forward-looking statements regarding the funds presented or their portfolio companies. Forward-looking statements include a number of risks, uncertainties and other factors beyond the control of the funds or the portfolio companies, which may result in material differences in actual results, performance or other expectations. The information presented is not a complete analysis of every material fact concerning each fund or each company. The opinions, estimates and analyses reflect our current judgment, which may change in the future.

All opinions, estimates and forecasts of future performance or other events contained herein are based on information available to Hamilton Lane as of the date of this presentation and are subject to change. Past performance of the investments described herein is not indicative of future results. Certain of the information included in this presentation has not been reviewed or audited by independent public accountants. Certain information included herein has been obtained from sources that Hamilton Lane believes to be reliable but the accuracy of such information cannot be guaranteed.

The past performance information contained in this report is not necessarily indicative of future results and there is no assurance that the funds will achieve comparable results or that they will be able to implement their investment strategy or achieve their investment objectives. The actual realized value of currently unrealized investments will depend on a variety of factors, including future operating results, the value of the assets and market conditions at the time of disposition, any related transaction costs and the timing and manner of sale, all of which may differ from the assumptions and circumstances on which the current unrealized valuations are based.

Any tables, graphs or charts relating to past performance included in this report are intended only to illustrate the performance of the funds or the portfolio companies referred to for the historical periods shown. Such tables, graphs and charts are not intended to predict future performance and should not be used as the basis for an investment decision.

Real Estate Quarterly Report (Public):

Quarterly Real Estate Report

For the period ended September 30, 2021

Teachers' Retirement System of the City of New York

IMPORTANT INFORMATION

This document is meant only to provide a broad overview for discussion purposes. All information provided here is subject to change. This document is for informational purposes only and does not constitute an offer to sell, a solicitation to buy, or a recommendation for any security, or as an offer to provide advisory or other services by StepStone Group LP, StepStone Group Real Assets LP, StepStone Group Real Estate LP, StepStone Conversus LLC, Swiss Capital Alternative Investments AG and StepStone Group Europe Alternative Investments Limited or their subsidiaries or affiliates (collectively, "StepStone") in any jurisdiction in which such offer, solicitation, purchase or sale would be unlawful under the securities laws of such jurisdiction. The information contained in this document should not be construed as financial or investment advice on any subject matter. StepStone expressly disclaims all liability in respect to actions taken based on any or all of the information in this document. This document is confidential and solely for the use of StepStone and the existing and potential clients of StepStone to whom it has been delivered, where permitted. By accepting delivery of this presentation, each recipient undertakes not to reproduce or distribute this presentation in whole or in part, nor to disclose any of its contents (except to its professional advisors), without the prior written consent of StepStone. While some information used in the presentation has been obtained from various published and unpublished sources considered to be reliable, StepStone does not guarantee its accuracy or completeness and accepts no liability for any direct or consequential losses arising from its use. Thus, all such information is subject to independent verification by prospective investors.

On September 20, 2021, StepStone Group Inc. acquired Greenspring Associates, Inc. ("Greenspring"). Upon the completion of this acquisition, the management agreement of each Greenspring vehicle was assigned to StepStone Group LP

The presentation is being made based on the understanding that each recipient has sufficient knowledge and experience to evaluate the merits and risks of investing in private market products. All expressions of opinion are intended solely as general market commentary and do not constitute investment advice or a guarantee of returns. All expressions of opinion are as of the date of this document, are subject to change without notice and may differ from views held by other businesses of StepStone.

All valuations are based on current values calculated in accordance with StepStone's Valuation Policies and may include both realized and unrealized investments. Due to the inherent uncertainty of valuation, the stated value may differ significantly from the value that would have been used had a ready market existed for all of the portfolio investments, and the difference could be material. The long-term value of these investments may be lesser or greater than the valuations provided.

StepStone Group LP, its affiliates and employees are not in the business of providing tax, legal or accounting advice. Any tax-related statements contained in these materials are provided for illustration purposes only and cannot be relied upon for the purpose of avoiding tax penalties. Any taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

Prospective investors should inform themselves and take appropriate advice as to any applicable legal requirements and any applicable taxation and exchange control regulations in the countries of their citizenship, residence or domicile which might be relevant to the subscription, purchase, holding, exchange, redemption or disposal of any investments. Each prospective investor is urged to discuss any prospective investment with its legal, tax and regulatory advisors in order to make an independent determination of the suitability and consequences of such an investment.

An investment involves a number of risks and there are conflicts of interest.

Each of StepStone Group LP, StepStone Group Real Assets LP, StepStone Group Real Estate LP and StepStone Conversus LLC is an investment adviser registered with the Securities and Exchange Commission ("SEC"). StepStone Group Europe LLP is authorized and regulated by the Financial Conduct Authority, firm reference number 551580. StepStone Group Europe Alternative Investments Limited ("SGEAIL") is an SEC Registered Investment Advisor and an Alternative Investment Fund Manager authorized by the Central Bank of Ireland and Swiss Capital Alternative Investments AG ("SCAI") is an SEC Exempt Reporting Adviser and is licensed in Switzerland as an Asset Manager for Collective Investment Schemes by the Swiss Financial Markets Authority FINMA. Such registrations do not imply a certain level of skill or training and no inference to the contrary should be made.

In relation to Switzerland only, this document may qualify as "advertising" in terms of Art. 68 of the Swiss Financial Services Act (FinSA). To the extent that financial instruments mentioned herein are offered to investors by SCAI, the prospectus/offering document and key information document (if applicable) of such financial instrument(s) can be obtained free of charge from SCAI or from the GP or investment manager of the relevant collective investment scheme(s). Further information about SCAI is available in the SCAI Information Booklet which is available from SCAI free of charge.

All data is as of September 30, 2021 unless otherwise noted.

PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE RESULTS. ACTUAL PERFORMANCE MAY VARY.

Executive Summary

StepStone Group LP (“StepStone”) was engaged by Teachers’ Retirement System of the City of New York (“NYCTRS”) to provide Real Estate services for prospective investment opportunities, as well as portfolio management on NYCTRS’ portfolio (the “Portfolio”). Inception date of the Portfolio was on December 2002.

The following table illustrates the Portfolio's since inception investment performance as of September 30, 2021 as well as the change in performance from the prior quarter-end and the end of the same quarter in the prior year. The Portfolio's since inception net Internal Rate of Return (“IRR”) now stands at 9.6% at September 30, 2021, which is up 63.3 basis points quarter-over-quarter.

Performance Summary

	Amounts in USD millions				
	INCEPTION TO SEPTEMBER 30, 2021	INCEPTION TO JUNE 30, 2021	INCEPTION TO SEPTEMBER 30, 2020	QUARTERLY CHANGE	ANNUAL CHANGE
Number of Managers	54	54	51	0	3
Number of Investments	104	100	91	4	13
Number of Active Managers	47	47	45	0	2
Number of Active Investments	93	89	81	4	12
<i>Active Investments Only</i>					(in USD millions)
Committed Capital	\$7,569.8	\$7,041.9	\$6,157.0	527.9	1,412.9
Contributed Capital	5,317.6	5,000.8	4,433.4	316.8	884.1
Distributed Capital	2,977.3	2,791.7	2,479.8	185.6	497.5
Net Asset Value	4,369.8	3,929.2	3,205.2	440.6	1,164.6
Total Gain	2,029.5	1,720.1	1,251.6	309.4	777.9
Unfunded	2,813.8	2,626.4	2,252.8	187.3	560.9
Total Exposure	7,183.6	6,555.7	5,458.1	627.9	1,725.5
<i>Since Inception Returns, Includes Liquidated Investments</i>					
DPI	0.62x	0.62x	0.63x	0.00x	-0.01x
TVM Gross of Fees	1.58x	1.43x	1.40x	0.15x	0.18x
IRR Gross of Fees	12.5%	11.6%	10.6%	0.9%	1.9%
TVM Net of Fees	1.40x	1.36x	1.31x	0.03x	0.09x
IRR Net of Fees	9.6%	8.9%	8.1%	0.6%	1.4%

Past performance is not necessarily indicative of future results and there can be no assurance that the fund will achieve comparable results or avoid substantial losses.

-Number of Managers and Investments include active funds. Liquidated funds are not included.

-Committed Capital represents original commitments to partnership investments.

-Unfunded Commitment represents the aggregate remaining commitments to partnership investments.

-Total Exposure represents the sum of Market Value and Unfunded Commitment.

-DPI, or Distributed to Paid-In Multiple, is a performance metric that measures distributions received relative to capital interest. DPI is calculated as Distributions divided by Contributions.

-TVM, or Total Value Multiple, is a performance metric that measures total value created by the Portfolio relative to Contributions, without consideration for time. TVM is calculated as Total Value, which is comprised of Market Value plus Distributions, divided by Contributions.

-IRR, or Internal Rate of Return, is a performance metric that is calculated based on the Portfolio's daily cash flows and market value as of quarter-end. IRR is net of fund manager's fees, expenses, and carried interest.

-TVM and IRR Net of fees represent TVM and IRR net of fees.

-DPI, TVM and IRR are since inceptions values up until the current quarter.

Portfolio Performance vs Benchmarks

The Portfolio's Total Time Weighted Returns ("TWR") are measured against the NFI-ODCE benchmark plus 100 basis points. The NCREIF Fund Index – Open End Diversified Core Equity ("NFI-ODCE") is a capitalization weighted return index with an inception date of December 31, 1977. The NFI-ODCE contains data from 27 core, open-end funds investing in the United States. For the current quarter, the NFI-ODCE contained performance data from 3,182 investments, totaling over \$293.8 billion of gross real estate assets. The NFI-ODCE differs from the NCREIF Property Index because it includes leverage, reports returns gross and net of fees, and all reporting funds must qualify according to the NFI-ODCE diversification and other standards (e.g., fund level leverage below 40%). The referenced benchmark is shown for general market comparison and is not meant to represent any particular fund. An investor cannot directly invest in the NFI-ODCE index. Moreover, the benchmark does not reflect commissions or fees that may be charged to an investment product based on the index, which may materially affect the performance data presented.

TOTAL NET RETURNS vs. BENCHMARK
(for the period ended September 30, 2021)

-Portfolio inception date is 4Q 2002

Portfolio Diversification

The following charts outline the Portfolio's diversification by strategy and geographic regions, the limits of which are governed by the Policy Statement and Annual Plan. Funds that do not yet have NAVs are not included in the Allocation by Region analysis.

(in USD millions)

Allocation by Strategy	Net Asset Value		Unfunded		Total Exposure	
	\$	%	\$	%	\$	%
Core	2,543.4	58%	340.7	12%	2,884.2	40%
Non-Core	1,826.4	42%	2,473.0	88%	4,299.4	60%
Total	4,369.8	100%	2,813.8	100%	7,183.6	100%
Emerging	147.1	3%	219.1	8%	366.2	5%
Debt	515.4	12%	293.5	10%	808.8	11%

Allocation by Region	Net Asset Value		Unfunded		Total Exposure	
	\$	%	\$	%	\$	%
North America	3,825.3	88%	2,463.1	88%	6,288.4	88%
Europe	428.9	10%	276.2	10%	705.1	10%
Asia	104.4	2%	67.2	2%	171.6	2%
Rest of World	11.2	0%	7.2	0%	18.4	0%
Total	4,369.8	100%	2,813.8	100%	7,183.6	100%

Core and Non-Core Performance vs Benchmarks

The following graphs measure the Portfolio's Core and Non-Core performance against chosen benchmarks. The Portfolio's Core Time Weighted Returns are benchmarked against the NFI-ODCE. The Portfolio uses IRR by vintage year as a measurement of its Non-Core performance. A public market equivalent ("PME") of 60% Russell 3000 and 40% Barclays Capital Aggregate Bond Index is used to measure the Portfolio's Non-Core Performance. The PME is calculated using the Portfolio cash flows to produce a return that would have been earned if the Portfolio cash flows were invested in the PME.

CORE NET TWR vs. BENCHMARK

-Core Portfolio inception date is 4Q 2006

NON-CORE NET IRR vs PME RETURNS

Vintage Year	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
Non-Core PME	9.8%	6.8%	8.2%	8.0%	8.4%	8.7%	10.0%	11.2%	11.0%	9.3%	9.1%	9.0%	9.5%	11.1%	12.5%	12.0%	13.4%	15.5%	17.5%	3.7%
Non-Core IRR	11.1%	9.8%	25.1%	-10.4%	1.9%	8.2%	2.1%	9.4%	11.9%	17.1%	14.7%	9.5%	11.5%	10.9%	13.7%	13.2%	23.3%	21.6%	40.2%	N/M

The referenced indices/benchmarks are shown for general market comparisons and are not meant to represent any particular fund. An investor cannot directly invest in an index. Moreover, indices do not reflect commissions or fees that may be charged to an investment product based on the index, which may materially affect the performance data presented.

Portfolio Profile

New York City Teachers Retirement Systems has allocated 7.0% of the total plan to Real Estate. The Real Estate Portfolio's objective is to generate a total net return that exceeds the Benchmark NFI-ODCE +100 bps total net return measured over full market cycles.

Portfolio Compliance Checklist

Category	Requirement	Portfolio Status
Benchmark	Comprised of NFI-ODCE +100 bps	Portfolio returns outperform the benchmark over the quarter, one, three, five, ten and fifteen-year time periods.
Portfolio Construction	Core/Core-Plus (3%)	Market value plus unfunded commitment place the Portfolio at 40.1% Core/Core-Plus and 59.9% Non-Core. Based on market value, the Portfolio is 58.2% Core/Core-Plus and 41.8% Non-Core.
	Non-Core (4%)	
Real Estate Allocation	Target 7%	Market value plus committed capital place the Portfolio at 7.1% of total plan assets.
Property Type Diversification	Up to 40% Multifamily Up to 35% Industrial Up to 45% Office Up to 35% Retail Up to 25% Hotel Up to 20% Other	All property type allocations are compliant.
Geographic Diversification	Diversified geographically; Max 25% Ex-U.S.	All geographic allocations are compliant.
LTV	65.0%	The leverage (41.5%) is compliant.
Manager Exposure	20% of real estate allocation	All manager allocations are compliant.

Note: Beginning in Q1-2020, Total, Core/Core-Plus, and Non-Core real estate allocations changed to 7%, 3%, and 4%, respectively.

Portfolio Review

Quarterly Highlights

Cash Flow Activity

- During the third quarter of 2021, the Portfolio made US\$316.8 million of contributions and received US\$185.6 million of distributions, for a net cash outflow of US\$131.2 million, compared to a net cash outflow of US\$58.7 million during the second quarter of 2021. Contributions increased 31.4% from the prior quarter and increased 104.6% from the third quarter of 2020. The last twelve month ("LTM") quarterly average of the Portfolio's contributions is US\$227.8 million. Distributions increased 1.8% from the prior quarter and increased 282.6% from the third quarter of 2020. The LTM quarterly average of the Portfolio's distributions is US\$127.4 million.

Recent Portfolio Activity

- During the third quarter of 2021, net of cash flow activity, the Portfolio's value increased US\$309.4 million, or 7.9%, from the prior quarter. During the LTM period, net of cash flow activity, the Portfolio's value increased US\$777.9 million, or 24.3%, from the third quarter of 2020.

New Investment Commitments

- During the third quarter of 2021, the Portfolio closed on four new investment commitments, totaling US\$530.0 million.

Performance by Vintage Year

The following table and chart illustrate the Portfolio's since inception investment performance by vintage year as of September 30, 2021, relative to a blended PME benchmark comprised of Russell 3000 and Barclays Capital Aggregate Bond Index at a 50/50 ratio. The PME benchmark is used to measure the Portfolio's performance, using the respective vintage year Portfolio cash flows to produce a return that would have been earned if those same vintage year cash flows were invested in the PM.

(in USD millions; Includes liquidated investments)

Vintage Year	Commitment	Contributions	Distributions	NAV	Unfunded	Exposure	TVM	DPI	IRR	PME Returns	PME Spread

Debt	11	1,049.0	791.8	466.3	515.4	293.5	808.8	1.24x	10.6%	N/A	N/A	24.0%

The following chart illustrates the IRR and TVM of the Portfolio's various strategies and sub-strategies side by side. Both metrics are important to measure investment returns. IRR takes into account the time value of money and is generally favored by investors that are more yield driven over shorter investment horizons. The TVM equity multiple is the ratio of distributions plus current market value over the amount of capital contributed.

¹Russell 3000 and Barclays Capital Aggregate Bond Index are blended at the ratios of 40/60, 60/40 and 50/50 for the core, non-core and total portfolio PMEs, respectively.

Portfolio Diversification

The following charts outline the Portfolio's diversification by strategy and geographic regions, the limits of which are governed by the Policy Statement and Annual Plan. Fund's that do not yet have NAV are not included in the Allocation by Region analysis.

(in USD millions)

Past performance is not necessarily indicative of future results and there can be no assurance that the fund will achieve comparable results or avoid substantial losses. IRR and TVPI for certain vehicles may have been impacted by Stepstone's or the underlying GPs' use of subscription-backed credit facilities by such vehicles. Reinvested/recycled amounts increase contributed capital.

Important Information

This document is meant only to provide a broad overview for discussion purposes. All information provided here is subject to change. This document is for informational purposes only and does not constitute an offer to sell, a solicitation to buy, or a recommendation for any security, or as an offer to provide advisory or other services by StepStone Group LP, StepStone Group Real Assets LP, StepStone Group Real Estate LP, StepStone Conversus LLC, Swiss Capital Alternative Investments AG and StepStone Group Europe Alternative Investments Limited or their subsidiaries or affiliates (collectively, "StepStone") in any jurisdiction in which such offer, solicitation, purchase or sale would be unlawful under the securities laws of such jurisdiction. The information contained in this document should not be construed as financial or investment advice on any subject matter. StepStone expressly disclaims all liability in respect to actions taken based on any or all of the information in this document. This document is confidential and solely for the use of StepStone and the existing and potential clients of StepStone to whom it has been delivered, where permitted. By accepting delivery of this presentation, each recipient undertakes not to reproduce or distribute this presentation in whole or in part, nor to disclose any of its contents (except to its professional advisors), without the prior written consent of StepStone. While some information used in the presentation has been obtained from various published and unpublished sources considered to be reliable, StepStone does not guarantee its accuracy or completeness and accepts no liability for any direct or consequential losses arising from its use. Thus, all such information is subject to independent verification by prospective investors.

On September 20, 2021, StepStone Group Inc. acquired Greenspring Associates, Inc. ("Greenspring"). Upon the completion of this acquisition, the management agreement of each Greenspring vehicle was assigned to StepStone Group LP.

The presentation is being made based on the understanding that each recipient has sufficient knowledge and experience to evaluate the merits and risks of investing in private market products. All expressions of opinion are intended solely as general market commentary and do not constitute investment advice or a guarantee of returns. All expressions of opinion are as of the date of this document, are subject to change without notice and may differ from views held by other businesses of StepStone.

All valuations are based on current values calculated in accordance with StepStone's Valuation Policies and may include both realized and unrealized investments. Due to the inherent uncertainty of valuation, the stated value may differ significantly from the value that would have been used had a ready market existed for all of the portfolio investments, and the difference could be material. The long-term value of these investments may be lesser or greater than the valuations provided.

StepStone Group LP, its affiliates and employees are not in the business of providing tax, legal or accounting advice. Any tax-related statements contained in these materials are provided for illustration purposes only and cannot be relied upon for the purpose of avoiding tax penalties. Any taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

Prospective investors should inform themselves and take appropriate advice as to any applicable legal requirements and any applicable taxation and exchange control regulations in the countries of their citizenship, residence or domicile which might be relevant to the subscription, purchase, holding, exchange, redemption or disposal of any investments. Each prospective investor is urged to discuss any prospective investment with its legal, tax and regulatory advisors in order to make an independent determination of the suitability and consequences of such an investment.

An investment involves a number of risks and there are conflicts of interest.

Each of StepStone Group LP, StepStone Group Real Assets LP, StepStone Group Real Estate LP and StepStone Conversus LLC is an investment adviser registered with the Securities and Exchange Commission ("SEC"). StepStone Group Europe LLP is authorized and regulated by the Financial Conduct Authority, firm reference number 551580. StepStone Group Europe Alternative Investments Limited ("SGEAIL") is an SEC Registered Investment Advisor and an Alternative Investment Fund Manager authorized by the Central Bank of Ireland and Swiss Capital Alternative Investments AG ("SCAI") is an SEC Exempt Reporting Adviser and is licensed in Switzerland as an Asset Manager for Collective Investment Schemes by the Swiss Financial Markets Authority FINMA. Such registrations do not imply a certain level of skill or training and no inference to the contrary should be made.

In relation to Switzerland only, this document may qualify as "advertising" in terms of Art. 68 of the Swiss Financial Services Act (FinSA). To the extent that financial instruments mentioned herein are offered to investors by SCAI, the prospectus/offering document and key information document (if applicable) of such financial instrument(s) can be obtained free of charge from SCAI or from the GP or investment manager of the relevant collective investment scheme(s). Further information about SCAI is available in the SCAI Information Booklet which is available from SCAI free of charge.

All data is as of September 30, 2021 unless otherwise noted.

PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE RESULTS. ACTUAL PERFORMANCE MAY VARY.

I. Executive Summary

The Teachers' Retirement System of the City of New York ("NYC TRS") established the Infrastructure Program (the "Program") in December of 2012 on behalf of its beneficiaries to participate in attractive long-term investment opportunities and to provide diversification to its overall pension investment portfolio.

The inclusion of infrastructure in the NYC TRS pension portfolio allows for global investments in facilities or assets that provide core essential services critical to the operation and development of economies. Typically infrastructure investments have high barriers to entry due to significant capital expenditure requirements, exclusive long term contracts or regulatory requirements. Infrastructure investments are comprised of long useful-life assets with high tangible value and relatively low value erosion over time.

The Program seeks to invest in opportunities in a variety of infrastructure sectors, including but not limited to, transportation, energy, power, utilities, water, wastewater, communications and social infrastructure.

StepStone Group LP ("StepStone") was engaged by NYC TRS on October 20, 2014 to provide infrastructure advisory services for prospective investment opportunities and monitoring and reporting services for existing and new investments.

Since inception through September 30, 2021, the Program has committed US\$2,965.1 million to 32 partnership investments (the "Portfolio"). This quarterly monitoring report covers the performance of the Portfolio as of September 30, 2021 as well as significant activity that occurred during the third quarter of 2021.

Allocation Summary

NYC TRS has an Infrastructure allocation target of 4% of total pension assets. As of September 30, 2021, the market value of NYC TRS Infrastructure Program represented approximately 1.4% of total pension assets, a 12-basis point increase from the prior quarter.

US\$ in millions*	September 30, 2021	June 30, 2021	September 30, 2020	Quarterly Change	Yearly Change
Total Pension Assets*	\$101,152.0	\$101,090.2	\$85,973.0	\$61.8	\$15,179.0
Total Infrastructure Assets	\$1,389.9	\$1,264.3	\$1,091.5	\$125.7	\$298.4
% Allocation to Infrastructure (Target of 4%)	1.4%	1.3%	1.3%	+12 bps	+10 bps

*NYC TRS total Pension Assets are as of quarter-end (or, if not yet available, the most recent month-end prior to quarter-end) as reported by The New York City Comptroller's Office on www.comptroller.nyc.gov.

Performance Summary

As of September 30, 2021, the Infrastructure Program has achieved a Total Value to Paid-In multiple of 1.4x invested capital and an IRR of 12.4%.

US\$ in millions*	September 30, 2021	June 30, 2021	September 30, 2020	Quarterly Change	Yearly Change

* Note that amounts may not total due to rounding. **Past performance is not necessarily indicative of future results and there can be no assurance that the investment will achieve comparable results or avoid substantial losses.**

¹ Committed Capital is presented net of any commitment releases or expirations and reflects foreign currency exchange rate fluctuations. Note that the Base/(US\$) committed capital for foreign currency-denominated investments as of respective quarter-end dates is calculated as follows: (total net amount funded in Base currency) + (unfunded commitment in Local currency * quarter-end exchange rate). StepStone utilizes S&P Capital IQ as the source for quarter-end exchange rates to calculate committed capital.

² Exposure represents the sum of Market Value and Unfunded Commitment.

³ DPI, or Distributed to Paid-In Multiple, is a performance metric that measures distributions received relative to capital invested. DPI is calculated as Distributed Capital divided by Contributed Capital.

⁴ TVPI, or Total Value to Paid-In Multiple, is a performance metric that measures total value created by the Portfolio relative to capital invested, without consideration for time. TVPI is calculated as Total Value, which is comprised of Market Value plus Distributed Capital, divided by Contributed Capital.

⁵ IRR, or Internal Rate of Return, is a performance metric that is calculated based on the Portfolio's daily cash flows and market value as of quarter-end. IRR is net of fund managers' fees, expenses and carried interest.

⁶ TVPI and IRR Net of StepStone fees represent TVPI and IRR net of fees paid by NYC TRS to StepStone through the quarter-end date. IRR and TVPI for certain vehicles may have been impacted by StepStone's or the underlying GPs' use of subscription-backed credit facilities by such vehicles. Reinvested/recycled amounts increase contributed capital.

Portfolio Performance vs. Benchmarks

The performance benchmark for the Infrastructure Portfolio is to meet or exceed the Consumer Price Index ("CPI") plus 4% net of fees over a rolling 5-year period. The Infrastructure Portfolio's performance is also measured against a dollar-weighted public benchmark, which produced the return that would have been earned if NYC TRS's infrastructure cash flows were invested in an index of 50% Russell 3000® and 50% Barclays U.S. Aggregate®. The Infrastructure Portfolio is expected to generate a total return, net of investment management fees, of at least 6.5%.

The following graph illustrates Portfolio IRR performance versus benchmarks as of September 30, 2021.

¹NYC TRS since inception Internal Rate of Return ("IRR") is calculated based on the Portfolio's daily cash flows and market value as of quarter-end. IRR is net of fund managers' fees, expenses and carried interest. **Past performance is not necessarily indicative of future results.**

²Consumer Price Index ("CPI") benchmark represents the compound annual growth rate of the Consumer Price Index for All Urban Consumers and All Items, as provided by the U.S. Department of Labor: Bureau of Labor Statistics, calculated over a five-year rolling period plus a 4.0% premium.

³ Benchmark is a dollar-weighted PME+ calculation of daily changes in 50% of the Russell 3000® Index and 50% of the Barclays U.S. Aggregate® Index. These index comparisons are being provided solely for informational purposes as an indication of returns that could be earned by investors by making similar investments in the indexes and should not be relied upon for any purpose. An investor cannot directly invest in an index. Moreover, indices do not reflect commissions or fees that may be charged to an investment product based on the index, which may materially affect the performance data presented.

Portfolio Diversification

The Program's objective is to build a Portfolio that is diversified by investment strategy, geography, and industry focus. The investment strategy ranges are as follows:

- Core Infrastructure Investments: 60% to 100%; and
- Non-Core Infrastructure Investments: 0% to 40%.

Actual percentages may differ substantially from these targets during the initial years of the Program. The following table illustrates the current diversification of the Portfolio by fund strategy, geography and industry focus.

	Market Value		Unfunded Commitment		Exposure	
	\$	% of Total	\$	% of Total	\$	% of Total
<i>As of September 30, 2021. (US\$ In millions)</i>

II. Infrastructure Market Overview

Market Update

UK & Europe

During the quarter, the renewables and utilities sectors experienced robust deal activity. Northland Power completed its acquisition of a 551MW wind and solar portfolio in Spain from Helia Renewable for €348 million. Taiwan Cement Corporation announced the acquisition of a 60.5% stake in energy storage business Engie EPS from Engie for €240 million. GLIL Infrastructure purchased a 95% stake in energy storage business Flexion Energy for £150 million.

In the utilities sector, Macquarie agreed the purchase of a majority stake in UK water utility Southern Water through its Super Core Infrastructure Fund for £1 billion from existing stakeholders JP Morgan and Hermes Investment management. Finnish state-owned energy group Fortum has agreed to sell a 50% stake in its Swedish district heating and cooling business, Stockholm Exergi, to a group of investors for ~SEK24 billion. EDF divested its only UK gas-fired generation asset, West Burton CCGT, to EIG Global Energy Partners for £273 million. Czech utility CEZ completed the sale of its Bulgarian subsidiary CEZ Bulgaria to Inercom for €80 million.

In the telecommunications sector, I Squared completed the acquisition of GTT's infrastructure division – providing global fibre network and data centre infrastructure services – for US\$958 million.

North America

During the quarter, 74 infrastructure transactions were closed in North America with an aggregate value of US\$54.9 billion. The energy sector was the most active with 38 transactions and a total value of US\$20.5 billion, followed by the telecommunications sector with 18 deals with a total value of US\$26.1 billion. Activity in the transportation sector was fairly muted with six transactions totalling US\$5.2 billion in value.

Activity in the renewables space increased during quarter, with activity dominated by solar and wind transactions. In July, Orix Corporation closed its acquisition of an 80% stake in Spanish wind and solar developer Elawan Energy for US\$908 million. Elawan Energy's portfolio includes a 1.2 GW operating projects portfolio, 350 MW of which are from US operating wind generation projects and a 7.8 GW renewables development pipeline. In August, NextEra closed its acquisition of a 391 MW portfolio of four US wind farms from Brookfield Renewable for US\$733 million. In the same month, KKR closed its undisclosed minority stake investment in renewables developer, Sol Systems for US\$1.0 billion. In September, Axiom Infrastructure closed its acquisition of an 80% stake in Recurrent Energy's 350 MW solar and 1,400 MWh storage pre-construction projects in North America for US\$550 million.

The midstream sector experienced an uptick in deal activity with respect to aggregate transaction value from the prior quarter. In August, Hartree Partners closed its acquisition of the Pine Prairie and Southern Pines natural gas storage facilities owned Plains All American for US\$850 million. In September, Brookfield Infrastructure Partners closed its acquisition of Inter Pipeline, a Canadian petroleum and natural gas transportation company for US\$10.8 billion.

The telecommunications sector experienced a strong uptick in deal activity over the last quarter. In July, Mapletree Industrial Trust closed its acquisition of a portfolio of 29 US data centres from Sila Realty Trust for US\$1.3 billion. In August, Stonepeak closed its acquisition of Astound, a US fibre network provider, for US\$8.1 billion from TPG Capital. In the same month, Blackstone closed its acquisition of QTS Realty Trust, a US data centre REIT, for US\$10.0 billion. In September, Macquarie Infrastructure Partners V closed its acquisition of Cincinnati Bell, a major US telecommunications network operator for US\$2.9

billion. In the same month, ISQ Global Infrastructure Fund III closed its acquisition of 14 data centres and other data infrastructure assets in North America and Europe for US\$2.2 billion from GTT Communications.

The utilities sector experienced a slight decline relative to the preceding quarter. In July, the Queensland Investment Corporation and Ullico closed their acquisition of a major district heating and cooling utilities company CenTrio for US\$1.9 billion. In September, Oaktree Capital Management acquired Priority Power Management, an energy utilities services company for US\$250 million.

In the transportation sector, EQT closed its acquisition of First Group's North American transportation assets for US\$4.6 billion and Fortress Transport closed its acquisition of Transtar LLC, which houses US Steel's six railroad assets, for US\$640 million.

Several notable signed but uncompleted transactions were also announced during the quarter. EQT announced that it will acquire a 100% stake in Covanta Holdings for US\$5.3 billion. ArcLight Capital announced that it will acquire a 100% stake in a fleet of 13 gas-fired power plants from Public Service Enterprise Group for US\$1.9 billion. CPPIB announced that it has agreed to acquire a 100% stake in Ports America for US\$4.0 billion. Enbridge announced that it will acquire a crude oil export platform Moda Ingleside Energy Center for US\$3.0 billion.

Australia

During the quarter, the Australian infrastructure market continued to benefit from robust deal flow with recovery from the lows observed in 2020 ongoing. This has been led by several landmark processes with significant capital deployment a testament to improving private market investment conditions.

The most notable was Sydney Aviation Alliance's bid for Sydney Airport. The Sydney Aviation Alliance, a consortium comprising IFM Investors, Global Infrastructure Partners, QSuper and AustralianSuper, has been granted a four-week non-exclusive diligence period based on its A\$8.75/share offer, which valued the company at A\$23.6 billion. Also in transport, Sydney Transport Partners agreed to pay A\$11.1 billion for the New South Wales government's remaining 49% of Sydney's 33km WestConnex motorway. STP, which now includes AustralianSuper, CPPIB, CDPO, and Taraweed Investments, won the auction for the first 51% of WestConnex in 2018 when it paid A\$9.3 billion and had the right of first offer on the remaining 49%. IFM and APG had also been bidding for the first 24.5% stake, for which final bids were due on September 9, 2021 alongside the ROFO by STP.

The power and energy sector was also particularly active over the period with multiple large-scale transactions initiated. The Spark Infrastructure ("Spark") Board unanimously recommended a A\$5.2 billion takeover offer from KKR, Ontario Teachers Pension Plan ("OTPP") and the Public Sector Investment Pension Board ("PSP"). Announced on July 28, 2021, this was the consortium's third offer in which Spark granted non-exclusive due diligence with PSP subsequently joining KKR and OTPP in the consortium. The scheme implementation deed is still subject to rival superior offers and needs the approval of Spark securityholders as well as regulatory approvals, including the Foreign Investment Review Board.

Also in the power sector, Brookfield, through Brookfield Super Core Infrastructure Partners, has made a A\$2.50 cash p/share offer for 100% of ASX-listed Australian electricity and gas grid owner AusNet Services ("AusNet"). The offer is the third Brookfield has made for the company since August 30, 2021 and an increase on the initial A\$2.35 and A\$2.45 proposals with the A\$2.50 offer valuing the equity component of the business at A\$9.6 billion. Aside from the 48% of the company that is publicly listed, the offer also includes a bid for 32.7% owned by Singapore Power and the 19.9% held by China's State Grid. APA Group ("APA") also made a A\$2.60 scrip and cash offer and has subsequently applied to the Takeovers Panel asking for it to terminate Brookfield's exclusivity or grant a fiduciary out which would also allow APA to conduct due diligence. APA has

also been active outside of the AusNet process, engaging in negotiations with Singapore’s Keppel Infrastructure Trust (“KIT”) to buy the Basslink Electricity Interconnector which moves power between Tasmania and Victoria.

In renewables, BlackRock Real Assets acquired a majority equity stake in Australian electric vehicle charging network JOLT through its Global Renewable Power Fund III. The deal represents the manager’s first investment in the sector in the Asia-Pacific region. While it did not disclose the size of its stake or value, BlackRock noted it will invest more than A\$100 million to fund construction of JOLT’s charging infrastructure.

III. Portfolio Review

Quarterly Highlights

- **New Investment Commitments** – During the third quarter of 2021, the Program closed on three new investment commitments totaling US\$284.2 million. This is shown on the table below.

US\$ in millions

Investment	Month and Year Closed	Vintage Year	Strategy	Geographic Focus	Industry Focus	Committed Capital
ASF VIII Infrastructure B L.P.	August 2021	2021	Infrastructure	Global	Diversified	\$166.0
Axinfra US II LP (Class G Units)	September 2021	2021	Infrastructure	North America	Diversified	48.0
Axium Infrastructure Canada II (Intl) Limited Partnership (Class H)	September 2021	2021	Infrastructure	North America	Diversified	70.2
Total						\$284.2

- **Subsequent Investment Commitments** – Subsequent to quarter-end, the Program closed on one new investment commitment totaling US\$9.1 million. This is shown on the table below.

US\$ in millions

Investment	Month and Year Closed	Vintage Year	Strategy	Geographic Focus	Industry Focus	Committed Capital
Stonepeak Patagonia (Project Panther)	December 2021	2021	Infrastructure	Global	Communication	\$9.1
Total						\$9.1

- **Cash Outflow Increased** – During the third quarter of 2021, the Program made US\$140.2 million of contributions and received US\$59.0 million of distributions, for a net cash outflow of US\$81.3 million. This compared to a net cash outflow of US\$0.1 million during the prior quarter.
- **Valuation Increased** – During the third quarter of 2021, net of cash flow activity, the valuation of the Portfolio increased by approximately US\$44.4 million, or 3.3%, from the prior quarter. The valuation increase primarily reflects the increase in value of underlying investments in IFM Global Infrastructure Fund.
- **New Underlying Fund Investments** – During the third quarter of 2021, 20 investment position was added to the Portfolio. Below is a list of the top ten investments based on invested capital.

US\$ in millions

Company	Fund(s)	Investment Date	Stage	Industry	Country	Exposed Invested Capital	Exposed Market Value	TVM

Portfolio Diversification

By Strategy, Geography and Industry Focus

The Program's objective is to build a Portfolio that is diversified by investment strategy, asset type, and geography. The target investment strategy ranges are as follows:

- Core Infrastructure Investments: 60% to 100%; and
- Non-Core Infrastructure Investments: 0% to 40%.

Actual percentages may differ substantially from these targets during the initial years of the Program. The following table illustrates the current diversification of the Portfolio by fund strategy, geography and industry focus.

	Market Value		Unfunded Commitment		Exposure	
	\$	% of Total	\$	% of Total	\$	% of Total
<i>As of September 30, 2021. (US\$ In millions)</i>						
By Strategy:						
Core	1,090.1	78.4%	1,369.0	79.3%	2,459.1	78.9%

By Investment Manager

As of September 30, 2021, the Program had made 32 investment commitments to 12 managers. NYC TRS seeks to limit its exposure to any single manager to no more than 20% of the total Infrastructure Program when fully invested. As the Program matures and closes on additional commitments, the single manager exposure is expected to decline significantly. Below is the Portfolio's current exposure by manager.

Portfolio Cash Flow Analysis

Quarterly Cash Flow Activity

During the third quarter of 2021, the Program made US\$140.2 million of contributions and received US\$59.0 million of distributions, for a net cash outflow of US\$81.3 million. As of September 30, 2021, 24 fund investments in the Portfolio had cash flow activity. As the Program's commitment and investment activity increases, net cash outflow is expected to increase. The graph below illustrates cash flow activity since inception by calendar quarter.

Annual Cash Flow Activity

During the first three quarters of 2021, the Program made US\$211.5 million of contributions and received US\$118.5 million of distributions, for a net cash outflow of US\$93.0 million. The graph below illustrates cash flow activity since inception by calendar year.

Net Funded and Unfunded Commitments by Vintage Year

The following chart illustrates the Portfolio's net funded commitments (defined as total contributions inside commitment less any returns of excess capital and recallable distributions) as a percentage of total capital commitments, by fund vintage year, as of September 30, 2021. Overall, the Portfolio was 58.2% unfunded as of quarter-end.

The following chart illustrates the Portfolio's net funded commitments relative to total capital commitments, by fund vintage year, as of September 30, 2021. Overall, the Portfolio had US\$1,726.0 million of unfunded commitments as of quarter-end.

Portfolio Company-Level Analysis

Unusable As of quarter-end, the Portfolio had exposure to 212 unique unrealized portfolio companies/investment positions. As the Portfolio matures, the number of unique portfolio companies/investment positions is expected to increase significantly. On the individual fund level, all current investments are within the single investment limitation of 15% of total fund size. The Program's individual portfolio investment exposure is relatively concentrated as a result of the relative immaturity of the Program.

Geographic Exposure and Performance

The following charts illustrate the Portfolio's current exposure and performance by geographic region at the portfolio company level.

Industry Exposure and Performance

The following charts illustrate the Portfolio's current exposure and performance by industry at the portfolio company level.

*Multiples may not add to total multiple due to rounding.

Public Market Exposure

As of quarter-end, publicly traded investments comprised 10.2% of the Portfolio’s exposed market value. The following chart illustrates the current public market exposure at the portfolio company level.

Public Market Exposure Current Market Value

IV. Risk Management Matrix

Category	Requirement	Status	Status Notes
Allocation	NYC TRS has an Infrastructure allocation target of 4% of total pension assets.	✓	The market value of NYC TRS Infrastructure Program represents approximately 1.4% of total pension assets.
Performance vs. Benchmarks	The performance benchmark for the Infrastructure Portfolio is to meet or exceed: (i) The Consumer Price Index ("CPI") plus 4% net of fees over a rolling 5-year period and (ii) A dollar-weighted PME+ ("PME") calculation of daily changes in 50% of the Russell 3000® Index and 50% of the Barclays U.S. Aggregate® Index. The Infrastructure Portfolio is expected to generate a total return, net of investment management fees, of at least 6.5%.	✓	As of September 30, 2021, the Portfolio outperformed the CPI and PME benchmark by 5.8% and 2.1%, respectively.
Strategy Diversification	Core Infrastructure Investments: 60-100% Non-Core Infrastructure Investments: 0-40% Actual percentages may differ substantially from these targets during the initial years of the Program.	✓	The Program is in compliance with the Core/Non-Core allocation ranges. Currently the Program has 78.9% exposure to Core investments and 21.1% exposure to Non-Core investments.
Asset Type & Location Diversification	The Program will seek diversification by asset type, revenue drivers, and geography. The portfolio may include a variety of assets including but not limited to electricity transmission, pipelines, airports, toll roads, communication towers and electric generators, windmills etc. to vary the sources of revenue to the portfolio.	✓	The asset types and geographic location of current Portfolio investments are in compliance with the Program's Investment Policy Statement and Permissible Markets.
Leverage	The average leverage of all investments in the Program is to be no higher than 65%.	✓	The Program is in compliance with the average leverage limitation. The current leverage level is 37.4% ¹ .
Single Investment Size & Manager Diversification	The maximum commitment to a single investment is limited to no more than 15% of the aggregate committed capital of each fund. The maximum commitment to a single manager is limited to 20% of the total Infrastructure Program allocation when fully invested.	✓	On the individual fund level, all current investments are in compliance with the single investment limitation of 15% of total fund size. The Program is in compliance with the single manager limitation of 20% of the total Infrastructure Program.

¹The Program's leverage level is calculated by using a weighted average of each underlying investment's leverage and Net Asset Value as of September 30, 2021.

Note: IRRs presented are interim estimates and may not be indicative of the ultimate performance of fund investments due to a number of factors, such as the lack of industry valuation standards and the differences in the investment pace and strategy of various funds. Until a fund is liquidated, typically over 10 to 12 years, the IRR is only an interim estimated return. The IRR calculated in the early years of a fund is usually not meaningful given the J-Curve effect. The actual IRR performance of any fund is not known until all capital contributed and earnings have been distributed to the investor. The IRRs contained in this report are calculated by StepStone Group LP, a consultant to the New York City Retirement Systems, based on information provided by the general partners of each investment (e.g. cash flows and valuations). The IRR calculations and other information contained in this report have not been reviewed or confirmed by the general partners. The result of the IRR calculation may differ from that generated by the general partner or other limited partners. Differences in IRR calculations can be affected by cash-flow timing, the accounting treatment of carried interest, fund management fees, advisory fees, organizational fees, other fund expenses, sale of distributed stock, and valuations.

Tier 1 Macro Factor Scheme has six factors

Tier 1 Factor	Exposure Type	Description
Equity	Membership (weights)	USA Equity
Pure Private Equity	Membership (weights)	USA Private Equity
Real Estate	Membership (weights)	USA Real Estate
USA Credit	Sensitivities (durations)	Sensitive to USA credit spreads
USD Inflation	Sensitivities (durations)	Sensitive to USD inflation protected assets
USD Rates	Sensitivities (durations)	Sensitive to Govt rate exposure
Commodities	Membership (weights)	Sensitive to Commodities
USA Home Bias		USA Home Bias factor returns is very similar to that of a portfolio long the MSCI USA IMI index and short the currency-hedged MSCI ACWI ex-US IMI index.

Factor Residual Risk

This analysis shows basket consumption by investment mandate on a security look-through basis.

* Basket Eligible Assets are subject to the following thresholds - above which investment consumes basket capacity: 10% aggregate portfolio weight for investments in non-U.S. listed equities; 10% aggregate portfolio weight for real assets; and 10% aggregate portfolio weight for investments in high yield bonds and foreign debt issues that are registered with the SEC. To the extent that the value of investments in a particular category exceeds a threshold, the excess consumes basket capacity.

In the above table, the investment of cash held as collateral under the system's securities lending program, is included as a Non-Basket Asset in the Cash/Equivalent line.

Additional Assumptions

Alternative Assets Liquidation Estimates: Private Equity, Private Real Estate, and Infrastructure: assumes no liquidations in 2-year horizon; Opportunistic Fixed Income: assumes 75% immediate availability and 100% availability within one year; Hedge Funds: estimates provided by consultant.

Illiquid Ratio: Illiquid investment value for each of the three time horizons as a percentage of current AUM. The ratio is calculated under three scenarios: 1) Unadjusted estimated illiquid value to current total assets. 2) Unadjusted estimated illiquid values to current total assets after a 33% decline. 3) Estimated illiquid value after Fixed Income Stress Case to current total assets after a 33% decline.

Unfunded Commitments: Uses custodian value at month end.

Denominator Effect: Measures Illiquid Ratio for each time horizon after an assumed 33% decline in portfolio value.

Fixed Income Stress Case: Measures impact of new commitments to illiquid asset classes assuming no capital calls and a level 5-year pacing schedule.
