

1. Indicators applicable to investments in investee companies – AIC II

Summary Table 1: Mandatory Social and Environmental Indicators

Adverse sustainability indicator	Metric	Data Year	CR ¹	Impact [Year 2024]	Impact [Year 2024 - 2023]	Explanation	Actions taken, and actions planned, and targets set for the next reference period
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS							
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	2023	100%	14,015 tCO ₂ e	-376	Axiom calculated the Scope 1 and Scope 2 greenhouse gas emissions of the Funds' portfolio of underlying assets for the year ended December 31, 2023, by collecting real data from the operators of these projects on a quarterly basis. Axiom has excluded assets under construction and those acquired during the reporting year. Emissions from construction projects are considered to be outside of the boundaries of operational activities. Scope 3 emissions included for the first time this year. Axiom has committed 100% of its asset under management ("AUM") to be aligned with Net Zero and targets include; - By 2030, 50% reduction in absolute tCO₂e/C\$MM total portfolio NAV - By 2030, 30% reduction in absolute tCO₂e/MWh for Axiom Infrastructure energy portfolio These targets go beyond Axiom's own financed emissions, as they cover all absolute Scope 1 and Scope 2 emissions of our operational assets.
		Scope 2 GHG emissions	2023	100%	7,942 tCO ₂ e	4,763	
		Scope 3 GHG emissions	2023	100%	13,348 tCO ₂ e	N/A	
		Total GHG emissions (Scope 1 & 2)	2023	100%	21,957 tCO ₂ e	4,387	
		Total GHG emissions (Scope 1, 2 & 3)	2023	100%	35,305 tCO ₂ e	N/A	
	2. Carbon footprint	Carbon footprint (Scope 1 & 2)	2023	100%	4.69 tCO ₂ e/CAD \$MM	0.20	
		Carbon footprint (Scope 1, 2 & 3)	2023	100%	7.54 tCO ₂ e/CAD \$MM	N/A	
	3. GHG intensity of investee companies	GHG intensity of investee companies (Scope 1 & 2)	2023	100%	29.86 tCO ₂ e/CAD \$MM	1.29	
		GHG intensity of investee companies (Scope 1, 2 & 3)	2023	100%	48.3 tCO ₂ e/CAD \$MM	N/A	
	4. Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	2023	0%	0 %	0.00	Axiom does not invest in projects active in the fossil fuel sector. Not applicable
	5. a) Share of non -renewable energy production	Share of non -renewable energy production of investee companies from non - renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources	2023	100%	0 %	0.00	All generation comes from renewable energy for the fund. Not applicable
	5. b) Share of non -renewable energy consumption	Share of non -renewable energy consumption of investee companies from non - renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources	2023	100%	16 %	0.00	Energy consumption values are impacted by the electricity supply in the regions our assets are located. Axiom's renewable energy assets will continue to contribute to the decarbonization of energy grids in the regions they operate.

¹ Coverage Ratio (CR): measure the percent of the portfolio reporting on a given indicator based on the NAV of the underlying assets

	6. Energy consumption intensity per high impact climate sector	Energy consumption in GWh per million CAD of revenue of investee companies, per high impact climate sector; Grand Total	2023	100%	0.04 GWh/CAD \$MM	0.00		
		SECTION D: ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY - Battery Storage & Solar	2023	N/A	0. GWh/CAD \$MM			
		SECTION D: ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY - Battery Storage	2023	N/A	0. GWh/CAD \$MM			
		SECTION D: ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY - Hydroelectric Power Generation	2023	100%	0.01 GWh/CAD \$MM	0.01		
		SECTION L: REAL ESTATE ACTIVITIES - Social	2023	100%	0.1 GWh/CAD \$MM	0.03		
		SECTION D: ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY - Solar Power Generation	2023	100%	0.03 GWh/CAD \$MM	0.01		
		SECTION H :TRANSPORTATION AND STORAGE - Transportation	2023	100%	0.02 GWh/CAD \$MM	-0.06		
		SECTION D: ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY - Wind Power Generation	2023	100%	0.01 GWh/CAD \$MM	0.00		
		SECTION D: ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY - Thermal Power Generation	2023	N/A	0 GWh/CAD \$MM			
		SECTION D: ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY - Transmission and Distribution	2023	N/A	0 GWh/CAD \$MM			
		SECTION D: ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY - Utility Power Generation	2023	N/A	0 GWh/CAD \$MM			
Biodiversity	7. Activities negatively affecting biodiversity-sensitive areas	Share of investments in investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas	2024	100%	0 %	0.00	Axiom continues to monitor applicable environmental permits related to our portfolio assets. When necessary, implementation of mitigation practices to limit impacts on surrounding wildlife and biodiversity are applied.	Axiom continues to be committed to monitoring the impacts of our activities on wildlife and the surrounding environment.

¹ Coverage Ratio (CR): measure the percent of the portfolio reporting on a given indicator based on the NAV of the underlying assets

Water	8. Emissions to water	Tonnes of emissions to water generated by investee companies per million CAD invested, expressed as a weighted average	2024	89%	0 Tonnes/CAD \$MM	N/A	Indicator included for the first time in 2024.	Will continue to track this indicator moving forward.
Waste	9. Hazardous waste and radioactive waste ratio	Tonnes of hazardous waste and radioactive waste generated by investee companies per million CAD invested, expressed as a weighted average	2024	63%	0.013 Tonnes/ CAD \$ MM	0.00	With regards to radioactive waste, none of the assets held in Axiom's portfolio produce such waste. For hazardous waste, the data provided is based on definitions applicable in each investee company's jurisdiction, reflecting how hazardous waste is classified regionally. In terms of other medical waste, we are working with our long-term care operators to increase the disclosure of waste that is reported by this sector. Methodology on how this value is calculated adjusted. Values now use outstanding amount instead of revenue.	

Adverse sustainability indicator	Metric	Data Year	CR ¹	Impact [Year 2024]	Impact [Year 2024 - 2023]	Explanation	Actions taken, and actions planned, and targets set for the next reference period
INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS							
Social and employee matters	10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	2024	92%	0.0 %	0.00	Many of Axiom's operating partners are not multinational enterprises and thus, have stated that these are "not applicable". Axiom has been actively engaging with our partners to ensure that processes are aligned with the spirit of these guidelines, nonetheless. The coverage ratio improvement illustrates the prior year's efforts. Axiom will continue to work with our partners to increase this coverage ratio and alignment with the OECD Guidelines.
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance /complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	2024	92%	5%	-0.09	

¹ Coverage Ratio (CR): measure the percent of the portfolio reporting on a given indicator based on the NAV of the underlying assets

	12. Unadjusted gender pay gap	Average unadjusted gender pay gap of investee companies	2024	55%	1.83%	N/A	Indicator included for the first time in 2024.	Axiom will continue to work with our partners to increase this coverage ratio and overall results.
	13. Board gender diversity	Average ratio of female to male board members in investee companies, expressed as a percentage of all board members	2024	100%	72 % Male	-0.03	Methodology changed from the previous year to include all asset level entities where Axiom has a board member seat. 2023 values remained unchanged.	
				100%	28 % Female	0.03		
	14. Exposure to controversial weapons (anti - personnel mines, cluster munitions, chemical weapons and biological weapons)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	2024	0%	0%	0.00	Axiom does not invest in assets exposed to controversial weapons.	Not applicable

INDICATORS APPLICABLE TO INVESTMENTS IN SOVEREIGNS AND SUPRANATIONALS – #15 AND #16 NOT APPLICABLE TO AXIUM

Adverse sustainability indicator		Metric	Data Year	CR ¹	Impact [Year 2024]	Impact [Year 2024 - 2023]	Explanation	Actions taken, and actions planned, and targets set for the next reference period
INDICATORS APPLICABLE TO INVESTMENTS IN REAL ESTATE ASSETS								
Fossil fuels	17. Exposure to fossil fuels through real estate assets	Share of investments in real estate assets involved in the extraction, storage, transport, or manufacture of fossil fuels	2024	0%	0%	0.00	Axiom's real estate assets are comprised of long-term care facilities and hospital assets, none of which are exposed to fossil fuel activity.	Not applicable
Energy efficiency	18. Exposure to energy-inefficient real estate assets	Share of investments in energy- inefficient real estate assets	N/A	N/A	N/A	N/A	Given the differences in building energy performance regulations between North America and the EU, Axiom is still investigating the best way to align with this indicator and its thresholds.	
		Proxy Indicators Used						
		Share of investments in real estate assets with a LEED certification	2024	100%	7 %	-0.05	LEED places significant importance on energy efficiency associated with the participating buildings. Thus, energy efficiency is effectively factored into the operational performance of these buildings. LEED certified assets include: - Etobicoke General Hospital - SageWood and Walden Heights homes in Axiom's Aster	Results have decreased in 2024 with the onboarding of new assets within the space.

¹ Coverage Ratio (CR): measure the percent of the portfolio reporting on a given indicator based on the NAV of the underlying assets

2. Other indicators for principal adverse impacts on sustainability factors

Summary Table 2: Voluntary Social and Environmental Indicators

Adverse sustainability indicator		Metric	Data Year	CR ¹	Impact [Year 2024]	Impact [Year 2024 - 2023]	Explanation	Actions taken, and actions planned, and targets set for the next reference period
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS								
Energy consumption	19. Energy consumption intensity	Energy consumption in GWh of owned real estate assets per square meter	2023	100%	0.00015 (GWh/ m ²)	0.00003	Axium does not invest in real estate, but the indicator is applicable to our social sector assets. The results are based on electricity consumption.	Energy efficiency improvements are underway across the LTC portfolio.

Adverse sustainability indicator		Metric	Data Year	CR ¹	Impact [Year 2024]	Impact [Year 2024 - 2023]	Explanation	Actions taken, and actions planned, and targets set for the next reference period
INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS								
Social and employee matters	1. Investments in companies without workplace accident prevention policies	Share of investments in investee companies without a workplace accident prevention policy	2024	100%	0 %	0.00	Health & safety has always and will continue to be an area of focus at Axium.	Continue to monitor and ensure all new acquisitions follow health & safety regulations, laws, and best practices.
Social and employee matters	12. Unadjusted gender pay gap	Share of investments with policies in place to monitor and adjust any gender pay gap	2024	100%	64 %	-0.21	While a quantitative indicator was introduced to monitor the gender pay gap across assets in 2024, due to the different asset structures, Axium has kept this policy related indicator.	Alongside the disclosure of gender pay ratio, this indicator will continue to be tracked and monitored for improvements.

¹ Coverage Ratio (CR): measure the percent of the portfolio reporting on a given indicator based on the NAV of the underlying assets

Appendix I: Methodology

The below information outlines the various methodologies used to quantify the principal adverse impact indicators. An Asterix (“**”) is used to identify where alternative indicators were used as proxies and a double Asterix (“**”) is used to identify calculation methodology changes from the previous year.

METHODOLOGY		
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS		
Indicator	Formula	Comments
1. GHG emissions	$\sum_n^i \left(\frac{\text{current value of investment}_i}{\text{investee company's enterprise value}_i} \times \text{investee company's Scope}(x) \text{ GHG emissions}_i \right)$	Minor changes to the 2022 values (referenced to calculate the Impact [2024-2023]) from previously reported data due to unit changes applied during the implementation of a new software.
2. Carbon footprint	$\frac{\sum_n^i \left(\frac{\text{current value of investment}_i}{\text{investee company's enterprise value}_i} \times \text{investee company's Scope 1, 2 and 3 GHG emissions}_i \right)}{\text{current value of all investments (€M)}}$	Minor changes to the 2022 values (referenced to calculate the Impact [2024-2023]) from previously reported data due to unit changes applied during the implementation of a new software.
3. GHG intensity of investee companies**	$\sum_n^i \left(\frac{\text{current value of investment}_i}{\text{current value of all investments (€M)}} \times \frac{\text{investee company's Scope 1, 2 and 3 GHG emissions}_i}{\text{investee company's €M revenue}_i} \right)$	Methodology used to aggregate values changed to align with WACI requirements. Values from previous year adjusted to calculated difference from the previous year listed in the Impact [Year 2024-2023] column.
4. Exposure to companies active in the fossil fuel sector	$\frac{\text{NAV all investments of the financial product in the fossil fuel sector}}{\text{NAV of all investments of the financial product}}$	None
5. a) Share of non - renewable energy production	$\frac{\text{Total non - renewable energy production}}{\text{Total energy production}}$	None
5. b) Share of non - renewable energy consumption	$\frac{\text{Total non - renewable energy consumption}}{\text{Total energy consumption}}$	None
6. Energy consumption intensity per high impact climate sector	$\frac{\text{Total energy consumption per investment}}{\text{investee company's \$M revenue}}$	None
7. Activities negatively affecting biodiversity-sensitive areas	$\frac{\text{NAV of all investments negatively affecting biodiversity - sensitive areas}}{\text{NAV of all investments of the financial product}}$	None
8. Emissions to water**	$\frac{\text{current NAV of investment}_i}{\text{NAV of all investments}} \times \text{investee company's tonnes of emissions generated}$	Previous proxy data replaced with the SFDR defined requirement. Metric introduced for the first time this year.
9. Hazardous waste and radioactive waste ratio **	$\frac{\sum_{i=1}^n \left(\frac{\text{current value of investment}_i}{\text{investee company's enterprise value}_i} \times \text{investee company's tonnes of hazardous waste generated}_i \right)}{\text{current value of all investments (€M)}}$	Methodology used to aggregate values changed to align with weighted average requirements. Values from previous year adjusted to calculated difference from the previous year listed in the Impact [Year 2024-2023] column.

¹ Coverage Ratio (CR): measure the percent of the portfolio reporting on a given indicator based on the NAV of the underlying assets

INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS		
10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	$\frac{NAV \text{ of all investments with violations of UNGCP \& OECD}}{NAV \text{ of all investments reporting on this indicator}}$	None
11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	$\frac{NAV \text{ of all investments with processes to monitor compliance with UNGCP \& OECD}}{NAV \text{ of all investments reporting on this indicator}}$	None
12. Unadjusted gender pay gap	$Average \left\{ \frac{\text{pay of male paid employees in investee company} - \text{pay of female paid employees in investee company}}{\text{pay of male paid employees in investee company}} \right\}$	Previous proxy data replaced with the SFDR defined requirement. Metric introduced for the first time this year.
13. Board gender diversity **	$\frac{\text{Total count of male/female board members}}{\text{Total count of board members}}$	Methodology changed from the previous year to include all asset level entities where Axium has a board member seat. 2023 values remained unchanged.
14. Exposure to controversial weapons (anti - personnel mines, cluster munitions, chemical weapons and biological weapons)	$\frac{NAV \text{ of all investments exposed to controversial weapons}}{NAV \text{ of all investments}}$	None

INDICATORS APPLICABLE TO INVESTMENTS IN REAL ESTATE ASSETS		
17. Exposure to fossil fuels through real estate assets	$\frac{NAV \text{ of all investments exposed to fossil fuels through real estate assets}}{NAV \text{ of all investments}}$	None
18. Exposure to energy-inefficient real estate assets *	$\frac{NAV \text{ of all real estate investments LEED certified}}{NAV \text{ of all real estate investments}}$	None

VOLUNTARY SOCIAL AND ENVIRONMENTAL INDICATORS		
19. Energy consumption in GWh of owned real estate assets per square meter	$\frac{\text{Square meter of all real estate investments}}{\text{Electricity consumption of all real estate investments}}$	None
1. Investments in companies without workplace accident prevention policies	$\frac{NAV \text{ of all investments without a workplace accident prevention policy}}{NAV \text{ of all reporting investments}}$	None
12. Unadjusted gender pay gap *	$\frac{NAV \text{ of all investments with policies to monitor \& adjust any gender pay gap}}{NAV \text{ of all investments reporting on this indicator}}$	None

¹ Coverage Ratio (CR): measure the percent of the portfolio reporting on a given indicator based on the NAV of the underlying assets
